

## **Gordon Bunshaft** **1988 Laureate** **Ceremony Acceptance Speech**

In 1928, I entered the MIT School of Architecture and started my architectural trip. Today, 60 years later, I've been given the Pritzker Architecture Prize for which I thank the Pritzker family and the distinguished members of the selection committee for honoring me with this prestigious award. It is the capstone of my life in architecture. That's it.
